

Water Sources on the Arizona Trail by Passages

Arizona Trail Current Water Reports

31-Jan-12

Water reports are compiled from personal experiences, hikers, e-mails, phone calls, and trail journals. Please send any current water reports to Fred Gaudet at fwgaz@yahoo.com. Or (480) 983-0112

Mileage -- south to north -- agrees with Arizona Trail Segment Passages and GPS data at www.aztrail.org.

Information in this report is provided as a service to the community. Information in this report may not be accurate. Natural water sources in Arizona can and do rapidly change. Water cache may be empty. The user of this information is solely responsible for their own safety. Hike your own hike.

Man made water sources are listed as TOWN or other facility. Some locations may be closed and no water available. The LOCATION will indicate if a water source is off trail with a note, such as 0.5m E

Abbreviations: **m** - mile; **N** - north; **E** -east; **S** - south; **W** - west. "~" means "about"

It is recommended that water sources be verified with local sources, such as Forest Service Ranger Stations, National Park Service, BLM offices, or AZA Trail Stewards. Water quality may vary greatly and it is recommend that water sources be treated to reduce risk of water borne diseases.

Passag Miles	S-N Miles	Location	Type	Historic Water Reliability	Report	Date	Reported by	Date Posted
21.7 Passage 1 Huachuca Mountains: Mexican Border - Parker Canyon Lake								
1.9	1.9	Montezuma Pass	faucet	0	no facet	2/10/09	Guino	2/20/09
8.3	8.3	Bath Tub Spring	spring	3	flowing well; clear with some algae	3/11/11	Fireweed	3/20/11
